

MODENA BATHS

FREESTANDING LUXURY BATHING

Modena

This exclusive new range of **Free Standing** Luxury Bathing baths covers the whole sphere of Designer, Contemporary, Minimalistic, Classical and Traditional designs (**with 240 individual models within the range**) which we are sure will meet the current and future expectations and requirements of our customers in all aspects of Design, Quality and Price.

This new range of baths is at the forefront of modern design and manufacturing techniques, which has resulted in aspiring “thin edge” technology which will bring sophistication to any bathroom with their sharp clean lines, contours and generous proportions which provide the ultimate in comfort and relaxation during your bathing experience.

Each bath is skilfully designed, individually hand crafted and hand finished and is manufactured with modern technology together with the most specialist materials to be found globally to provide that much desired feeling of exquisite and opulent bathing which also guarantees that the bathing experience itself is as equally gratifying as the carefully selected form of art that the desired bath is itself.

Our professional team have over 25 years' experience in the bathroom industry covering Design, Manufacturing, Sales, Marketing and very importantly Customer after Sales and we as a company pride ourselves in providing only exceptionally high quality products in terms of both design and technology from the “Market Leaders” in the manufacture of acrylic baths and bathing systems which all conform and are accredited with current SGS ISO 9001:2000 standards.

Our vision at Moden is to become the prominent provider of Luxury, Hydrotherapy, Free-Standing & Walk-In bathing solutions in the UK and we are committed to delivering unrivaled standards of design, innovation, quality & service that will consistently meet our customers' expectations and requirements .

This new range of baths is at the forefront of modern design and manufacturing techniques, which has resulted in aspiring “thin edge” technology which will bring sophistication to any bathroom with their sharp clean lines, contours and generous proportions which provide the ultimate in comfort and relaxation during your bathing experience.

These baths are manufactured by the “Market Leader” in the manufacture of **Free Standing** acrylic baths which are manufactured in the most modern factory facilities using the highest current technology, stringent testing and specification of materials which result in hand crafted and hand finished products with unrivalled high finish, durability and extended service life which all conform and are accredited with current **SGS CE ISO 9001:2000** standards.

- The baths are produced using two pieces of 5mm sanitary grade acrylic sheets.
- Both the inner and outer acrylic skins are then reinforced using resin bonded glass fibre strands.
- When the resin is cured it sets solid to give both acrylic skins an improved strength and rigidity.
- Both skins are then coated with thermal sheets so that the water in the bath has longer heat retention.
- The inner and outer skins are then bonded together using polyester based cast giving it a solid base.
- The bath is finally hand finished and quality control checked and approved by the factory professional craftsmen.
